Dear Deborah:

I am pleased to inform you that Minnesota has been selected to serve as the second Pilot Partner state for the FIPSE OnCoRe Blueprint Project. Your state's interest in repositories and this project is greatly appreciated. After reviewing the many excellent applications we received, we decided to incorporate both a primary and secondary location into the pilot structure. The difference between the two roles, as I indicated on the phone, is the availability of travel and evaluation funds for the primary pilot state.

We are embarking on a joint venture that I hope will result in a repository model that will be of mutual benefit to our states. Minnesota's active involvement in this FIPSE grant as a pilot partner will significantly add to the knowledge and experience that can be captured and conveyed for use by other states developing repositories.

We will be following up with you to discuss the details of serving as the second Pilot Partner state. If you have any questions or concerns, please call or email myself or Elizabeth Johnson at 850-922-3359. I sincerely look forward to working with you and the great state of Minnesota.

Warm regards,

Susie Henderson  
Principal Investigator  
FIPSE OnCoRe Blueprint Project 2006-09
